## APB480/APB480B Automatic box pressing machine

It is professional box equipment which is mainly used to remove the bubbles of rigid boxes.

### Features:

1. Box feeding belt connects to the rigid box production line directly.
2. Box gripper delivers the boxes to molds orderly.
3. Two separate box pressing unit increase the production speed.
4. The box is unloaded from mold automatically.
5. HMI makes the operation easier.

### Main Technical Parameters:

Model	APB480(Two stations)	APB480B(Single station)
Max.(Box) Size	480*420*140mm	580*400*160mm
Min.(Box) Size	80*60*10mm	80*60*10mm
Speed	≤30pcs/min	≤25pcs/min
Power	2.5kw/220v 50Hz 1P	2.5kw/220v 50Hz 1P
Air supply	0.6Mpa, 600L/min	0.6Mpa, 600L/min
Machine Weight	750KG	500KG
Machine Dimension	2200*920*1800mm	1700*1000*1800mm
